Annual Escape Report Highlights

- There were 21 escapes from the California Department of Corrections and Rehabilitation Adult Institutions and Camps in 2005, an increase of 1 from 2004.
- The Adult Institution and Camp escape rate per 100 average daily population did not change. It has remained at 0.01 since 2001.
- There were 20 escapes from Adult Community Based Programs in 2005. From 1992 to 2001 the number of escapes for Adult Community Based Programs had a steady decrease from 1,409 to 202. However in 2002 and 2003, the number of escapes increased for those years to 216 and 218.
- The Adult Community Based Programs escape rate has changed from 0.5 in 2004 to 0.1 in 2005.
- Of all offenders that escaped from an Adult Institution, Camp or an Adult Community Based Program between 1975 and 2005, 99.0 percent have been apprehended.

DEFINITIONS AND FORMULAS USED TO PRODUCE THE ANNUAL ESCAPE REPORT

The Annual Escape Report presents the number of escapes from California Department of Corrections and Rehabilitation (CDCR) Adult Institutions, Camps, Community Correctional Centers, State Hospitals, Off Reservation Work Crew Assignments and Temporary Community Releases. Escapes that occur while the offender is outside of CDCR custody (out to court, hospital, etc.) are not included in this report.

ADP: The **A**verage **D**aily **P**opulation per day for the adult institution and camp population.

Community Correctional Centers: County, state and private facilities in local communities administered by or under contract with CDCR to house inmates in community correctional facilities, work furloughs, prisoner mother programs or parole violators returned to local jails.

Escape Rates:

Rate of Escapes From
Institutions and Camps = $\frac{(\text{Number of Escapes}) \times 100}{(\text{ADP})}$

Rate of Escapes From
Community Correctional Centers = $\frac{(\text{Number of Escapes}) \times 100}{(\text{Population at Risk})}$

Off Reservation Work Crew Assignment: Offenders away from the institution under CDCR custody, working on a maintenance crew or disaster relief team.

Population at Risk: Offenders in a population on January 1 of any given year, plus offenders entering the population during the year. This is used instead of the ADP in calculating the Community Correctional Center escape rates. This is due to the more diverse program types, population and typically shorter length of stay.

Temporary Community Release: Temporary location for offenders away from adult institution for less than 72 hours (upon CDCR approval).
